

IMPROVING YOUR OFFICE VISIT

Our goal is to provide the best care and make the most of your office visit. Optimal results can only occur when you become a partner in your healthcare.

Preparing for your visit:

- What makes your symptoms better or worse?
- What medications are you on? Do you need a refill?
- Have you had any test or x-rays? What are the results?
- Tell the doctor if you have an important health condition you haven't discussed or been asked about.
- Tell the doctor if you can't follow the treatment plan.
- If this is a follow-up visit for the same medical condition, are you better? Worse? What works best? What doesn't work?
- If you are considering surgery, ask the doctor to explain the procedure, and alternatives.
